

## Château la Tour de l'Evêque

## Rouge 2017

Certified organic since 2005.

**TERROIR** 

AOC Côtes de Provence.

In the hilly area of the Maurettes the land consists of shaley soils derived from siluraian sages phyllites near

Hyères, and Permian red sandstone.

GRAPPES

80% Syrah, 20% Cabernet-Sauvignon. Average age of the vines : 25 years.

VINTAGE

Winter was mild and dry, resulting in very early budburst. While the mistral wind, which had been very present since the beginning of the year, kept the vineyards in good health, there was virtually no rain in the spring. We observed the first Grenache flowers on May 9. July and August were particularly hot and dry (no rain since 4 mm on May 4), and quite windy. Harvesting began on August 16 and ended on September

8.

GROWING

The vineyards are worked by hand, using natural animal fertilizers. Buds are trimmed and a green harvest is practiced to purposefully limit yields. A part of the vineyard is plowed with horses. The area between the rows of vines is grassed over with cereals.

WINEMAKING

The grapes are picked and sorted by hand, according to their polyphenolic ripeness (depending on the evolution of the maturity, two to three analytical tests and berry tastings are carried out every week in order to determine the optimum harvest date). In the press room, the berries are destemmed, slightly treaded and transferred into stainless steel vats. The alcoholic fermentation is run to extract optimum fruit and color, but also to produce an elegant wine. Maceration lasts about 10 days. Once the malolactic fermentation is over, the wines are stored into concrete vats. Two or three racking were accomplished during the maturation. The wine is blended in tanks and bottled at the Château.

**TASTING** 

Our reds seduce for their elegance, amaze by their ability to age; dress Ruby-purple, intense nose, notes of black fruits and aromatic herbs, dry and ample palate, very generous; it is perfect with meats, cheeses, chocolate. Tasting between 16° and 18° C
